Technical

Skills

- **Languages:** HTML, CSS, JavaScript, TypeScript, Python, C, C++, Java
- **Frameworks & Libraries:** React.js, Next.js, Express.js, Node.js, Tailwind CSS
- **Data Science & Visualization:** NumPy, Pandas, Matplotlib, Seaborn
- **Database:** MongoDB, Mongoose
- **Authentication:** NextAuth.js, JWT
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma

Education

- **Bachelor of Engineering in Computer Engineering** – Thakur College of Engineering and Technology, Mumbai University
Third Year (Currently)
CGPA: 9.37
2024–2028
- **XII (HSC)** – Thakur College of Science & Commerce, Maharashtra State Board
Percentage: 78%
2024
- **X (SSC)** – Himalaya High School, Maharashtra State Board
Percentage: 78%
2022

Projects

- **E-Commerce Food Farm Website:** –Full-stack online store with product listing, cart, and checkout | Responsive and image-optimized.
Built a complete MERN-based marketplace for fresh farm produce with product filtering, cart management, authentication, and login controls.
Integrated Cloudinary for dynamic image handling; implemented add-to-cart, login/signup, and payment simulation.
Tech: MongoDB, Express.js, Node.js, Cloudinary, HTML, CSS, JavaScript [GitHub Repo](#)
- **SkillBridge:** – AI-powered campus networking and career preparation platform for college students.
Developed a modern full-stack platform enabling students to connect with peers, showcase technical skills, collaborate on projects, and monitor academic progress.
Implemented secure authentication, profile management, placement readiness analytics, and career-focused dashboards with responsive UI.
Designed scalable architecture using Next.js App Router and MongoDB for efficient data handling and performance.
Tech: Next.js 16, React.js, TypeScript, MongoDB, Mongoose, NextAuth.js, Tailwind CSS, Lucide React [GitHub Repo](#)
- **Full Stack Blog Website:** –Blog platform with user posts, edit/delete controls, and responsive design | Markdown-supported.
Implemented backend REST API and frontend dashboard for post creation, user authentication, comment section, and tag-based filtering.
Supports markdown syntax, mobile responsiveness, and secure routing using tokens.
Tech: MongoDB, Express.js, Node.js, JWT, HTML, CSS [GitHub Repo](#)

Achievements

&

Activities

- **Competitive Programming & Problem Solving** Aug 2025 – Present
Solved 100+ Data Structures and Algorithms problems across LeetCode, GeeksforGeeks, Code360, CodeChef, HackerRank, and Codeforces.
Strengthened problem-solving skills through topics including Arrays, Strings, Searching, Sorting, Recursion, Linked Lists, Stacks, Queues, Trees, Graphs, and Time Complexity Analysis.
- **Hackathons** Jul 2025 – Present
Participated in 10+ national-level hackathons (online and hybrid), collaborating in teams to design and develop innovative software solutions.
Qualified for the offline final rounds of the **Odoo × SPIT Hackathon** and **Mumbai Hacks**.
- **GitHub Profile** Dec 2024 – Present
Maintained 30+ public repositories with 550+ commits spanning full-stack web development, academic coursework, automation scripts, and personal projects.
Actively practiced version control, collaborative development workflows, and project documentation using Git and GitHub.
